Transfer Your Data to This Mac

You can transfer your data from another Mac or Windows PC. If you don't want to transfer from a computer, you can use a backup or startup disk, or set up this Mac without transferring any data.

How do you want to transfer your information?

- From a Mac, Time Machine, or startup disk
- From a Windows PC
- Set up with iPhone or iPad
- Set up as new

Data & Privacy

This icon appears when an Apple feature asks to use your personal information.

You won't see this with every feature since Apple collects this information only when needed to enable features, secure our services, or personalize your experience.

Apple believes privacy is a fundamental human right, so every Apple product is designed to minimize the collection and use of your data, use on-device processing whenever possible, and provide transparency and control over your information.

Analytics

Help Apple and app developers improve their products and services automatically.

Share Mac Analytics with Apple

Help Apple improve its products and services by automatically sending diagnostics and usage data. Diagnostic data may include location information.

Share crash and usage data with app developers

Help app developers improve their apps by allowing Apple to share crash and usage data with them.

About Analytics & Privacy...

Screen Time

Get a weekly report with insights about your screen time, and set time limits for apps and websites you want to manage. Adults can also set parental controls for a child's device.

Weekly Reports
View daily and weekly charts and get insights about your screen time.

Downtime and App Limits
Schedule time away from the screen and set daily time limits for apps or app categories.

Content & Privacy Restrictions
Restrict settings for contacts, explicit content, purchases and downloads, and privacy.

Screen Time Passcode
Manage screen time for children from your Mac or iOS device, or use a screen time passcode on your child's device.

Siri

Siri helps you get things done just by asking. Siri can also make suggestions before you ask in apps, search, and keyboards.

Enable Ask Siri

Apple stores transcripts of your interactions with Siri and may review a subset of these transcripts. Siri may also send information like your audio, Siri setup, contacts, and location to Apple to process your request. Data is not associated with your Apple Account.
